

Call for Physicians to Mentor University of Toronto Students!

The IMAGINE clinic, a student-run interprofessional walk-in clinic located at Queen and Bathurst is currently seeking **physician** preceptors to supervise medical students during clinic hours on Saturdays from 10am-2pm.

The IMAGINE Clinic greatly depends on the contributions of our dedicated preceptors to keep the clinic running. We are currently in need of physician preceptors to join the IMAGINE team and oversee students as they help members of the community.

IMAGINE functions as multidisciplinary team of medicine, pharmacy, nursing, occupational therapy, physiotherapy, and social work preceptors and students committed to serving the marginalized populations of Toronto.

IMAGINE offers clients free access to healthcare regardless of OHIP status, personal identification, or a permanent address. The clinic aims to provide accessible care to Toronto's inner city population. Each week, the clinic operates with a multidisciplinary team of students who provide care to patients under the guidance and mentorship of their respective preceptors. We are an entirely non-profit organization and share medical equipment and medication with the Queen West Community Health Centre.

This is a unique opportunity to mentor students and work with Toronto's inner city patient population. We welcome preceptors from **all fields of practice and levels of experience**, and require **no previous student mentorship familiarity**. Information and support will be provided to ensure all preceptors feel comfortable in their roles. Additionally we offer **flexible scheduling** and encourage our preceptors to volunteer as little or much time with us as they would like.

If you are interested in volunteering your time with us, or receiving more information, please fill out the short form below and a member of our Preceptor Recruitment Team will be in touch shortly! Also, if you know of any of your colleagues that may be interested in this opportunity, please feel free to forward this message to them!
